prof. dr hab. **Henryk Kardela** (Instytut Anglistyki)

### **Subjectivity and Intersubjectivity: A Cognitive Linguistic Perspective**

WY, 30h

Kierunek: **kognitywistyka**

Poziom kształcenia: studia I stopnia

Semestr: letni

#### **Opis przedmiotu:**

This course provides a survey of problems relating to subjectivity and intersubjectivity as seen from a cognitive linguistics standpoint. Viewed through the prism of Ernst Cassirer's philosophy of symbolic forms, the discussion of subjectivity and intersubjectivity concentrates on Karl Bühler's *two-field theory* of language, especially his theory of *origo*, Ronald Langacker's theory of subjectification, Elisabeth Traugott's pragmatic- and diachrony-related theory of intersubjectification and Michael Tomasello's and Jordan Zlatev's culture-related theory of intersubjectivity.
